

Durable, Versatile, FDA-Compliant Storage

Designed for versatility, these durable containers are ideal for the food service industry and various industrial applications. Made with FDA-compliant material, they are safe for storing food and other sensitive items. Their heavy-duty construction ensures long-lasting performance, while the ergonomic handles provide comfortable and easy transport. AkroTubs are also available in two styles, a cross-stackable version that can be nested or rotated 90° to stack when full.

Store it with Akro-Tubs
